Project mail2sms - Outlook plug-in (Vodafone)

Mail2sms makes it possible to:

Send an SMS as easily as you would send an e-mail, by adding a new button "New SMS" in Microsoft® Outlook, similar to the one for sending e-mails.

Send SMSs simultaneously to several numbers and to distribution lists. Distribution lists in Microsoft® Outlook can be used provided the destinations where messages are sent contain the mobile phone number.

Send SMSs longer than 160 characters

Send notifications via SMS for appointments made in Microsoft® Outlook Calendar.

Send notifications via SMS for high priority e-mail messages.

Microsoft Speaker

In the last three years I was invited by Microsoft Romania to participate as **speaker at MSDN Briefing Conference**.
